

Civil Project Engineer

Mid Level

We're looking for problem solvers

Calibre is a Service Disabled Veteran Owned Small Business (SDVOSB) specializing in civil, structural, and whitewater engineering. We're working toward a common goal to bring out the best in people and communities through high-Calibre exploration, service, and support. Sound like a place you'd like to build a career? Read on!

We're looking for bright minds to help us solve engineering problems. You're an experienced civil engineer who likes a challenge. Together, we can plan, design, and build great projects!

In this position, you'll be a pivotal part of a team and the company, working to solve engineering puzzles. You'll have plenty of opportunity to practice your design skills and mentor new designers. You might design infrastructure for The River Mile in Downtown Denver. You might work with our whitewater team on swiftwater rescue facilities. And you might provide civil design for renewable energy projects. You'll love completing the puzzle and working alongside a great team.

You'll thrive in this position if you're passionate about:

- ✓ Improving communities.
- ✓ Grading and earthwork.
- ✓ Collaborating.
- ✓ Serving the community.
- ✓ Engineering for the future.
- ✓ Sustainability.
- ✓ Building connections.
- ✓ Diverse and meaningful project work.
- ✓ Loving where you work.

Calibre's award-winning team is focused on exploration, service, and support. It is important to us that our employees feel like members of the Calibre family. Calibre has consistently been named a Best Firm to Work For by Zweig Group, and is currently ranked #5 in small firms in North America. We offer great benefits, employee-focused growth and development, and an open-door policy.
