

Structural Engineer

Experienced (Mid to Senior Level)

We're looking for Engineers to grow with us!

At Calibre, we are driven by the opportunity to explore, support, and serve.

Calibre is a Service Disabled Veteran Owned Small Business (SDVOSB) providing civil, structural, and whitewater engineering. Our mission is to bring out the best in people and communities through high-Calibre exploration, service, and support.

We're on the hunt for a motivated Structural Engineer to grow with us! Instead of hiring for a specific position, we are searching for the right fit for our team and will assign a role that aligns with your experience and future goals. We seek to add a team-oriented employee whose role and tasks will vary from week to week with project need. From running your own projects, to assisting others in completing individual design tasks.

You'll thrive in this position if:

- ✓ **You're passionate about structures.** You'll be responsible for applying intensive and diversified knowledge of structural engineering principles and practices.
- ✓ **You're a leader.** This position includes technical direction over Engineers and BIM Technicians. You'll exercise judgment in the independent evaluation, selection, and substantial adaptation and modification of standard techniques, procedures, and criteria.
- ✓ **You're an effective communicator.** You'll be responsible for effective communication with the Client, agencies, and the project team, including other consultants.
- ✓ **You enjoy making connections and building business.** You'll assist with business development efforts to establish new clients and enhance relationships with existing ones. You'll also assist with the preparation of proposals.
- ✓ **You're committed to personal and professional growth.** Calibre is passionate about investing in you and supporting your growth. We whole-heartedly believe that if we invest in our people, they will provide a higher Calibre of service to our clients.

Are you a fit? Read on to learn more about the specific responsibilities, requirements, and qualifications of this position.
